

ICMOBVC MOBILE ICRA PACKAGE

Contain Airborne Particles During Wall & Ceiling Access

The **ICMOBVC** package from Abatement Technologies is an economical, effective and easy-to-use mobile containment system prepackaged specifically for work in areas above ceilings and in wall cavities. It meets requirements in the CDC Infection Control Guidelines (ICRA) and the Canadian CSA Z317-13-03. Types of activities that require the **ICMOBVC** system for work within walls and ceilings of healthcare facilities include jobs such as installing, inspecting, or maintaining:

- Electrical cables and components
- HVAC system components
- Fire protection systems

The **ICMOBVC** ICRA package contains:

AIRE GUARDIAN® AG3000 Mobile Construction Cube & AG-CADDY Cart

- Reusable mobile cube for particle containment
- Fast & easy wall and ceiling access all in one unit
- Exceptionally tough & durable, yet very lightweight
- Precise height adjustments up to 10 feet
- Accommodates up to 900 lbs of evenly distributed weight
- Roomy enough to hold a worker with an 8 foot ladder
- Top closes & seals for full particle containment
- Compacts for easy storage & transport to the job site
- Package components store conveniently right on the cart
- Caddy allows portable air scrubber to remain connected to the AIRE GUARDIAN module during transport

PREDATOR® Model PRED750 Portable Air Scrubber

- Compact and ultra-lightweight at 35 pounds
- Maintains ACH & negative pressure in the AG3000 cube
- Airflow adjustable from 200 cfm up to 750 cfm
- 3-stage filtration with certified 99.97% HEPA filter
- Useful for many other jobs independent of the AG3000

HEPA-AIRE® V8000WD Portable Wet/Dry HEPA Vacuum

- 8 gallon wet/dry vacuum
- Equipped with HEPA filter and complete tool kit
- Removes particles to help decontaminate surfaces within the AG3000
- Powerful, yet exceptionally quiet
